

## Nevada State Society Children of the American Revolution

*"let no soldier be forgotten"*

# Noah Jennings State President

## 2011–2012 Theme: Preserving the American Dream

Every day while we are Living the American Dream, thousands of American men and women are serving overseas in the U.S. Armed Forces *Preserving the American Dream*.

As Children of the American Revolution, our ancestors and their families shared the same kind of sacrifices as our service members and their families do today. This year, let's show our support for these brave men and women who continue *Preserving the American Dream*.

The State President's Project asks each local C.A.R. society to participate in activities to support those who are *Preserving the American Dream*.

- Go to [www.webofsupport.com](http://www.webofsupport.com) to sign up to adopt a service member serving overseas.
- It is really simple. Write a letter to your service member, make him or her a card, or send a goody box at least once a month or more if you like.
- Fill up a flat rate box with items, including letters and cards from your society members. Boxes, labels and customs forms are available for free at the U.S. Post Office.
- Mail your box. Always write WebofSupport.com above your name in the return address block. If you have any trouble completing customs forms the Post Office Personnel will help you. Also, see the easy-to-follow instructions at [webofsupport.com/join.php](http://webofsupport.com/join.php). You should be able to pack as much as you can fit into the small flat rate box and only pay \$10 in postage for each box.
- Remember it can take 10–14 days for your mail to arrive in Iraq/Afghanistan. Some service members are very communicative, and some are not. Even if you don't hear from your service member, just keep writing and shipping.
- Some of our service members use military assigned e-mail addresses...if yours does you might be able to e-mail your service member.

Please keep track of your activities. Boxes can be logged as to how many pounds of items you shipped overseas to your service members. You can also track the number of cards, letters, e-mails, etc. Each local society will be asked to give a report regarding their activities *Preserving the American Dream just prior* to the Nevada State Society conference in the spring of 2012.
